

Quality products
since 1836

175 YEARS

J. N. EBERLE & CIE. GMBH

TODAY:

- › Manufacturer of carbide and bimetal band saw blades, precision and bimetal strip steel
- › Production location in Augsburg with 250 employees
- › 3 subsidiaries abroad
- › more than 90% export share

LOOKING BACK:

- › 1836 Foundation of the first fret saw factory by the bricklayer and chimney sweep Norbert Eberle in the town center of Augsburg
- › 1867 Invention of the first tothing machine of fret saw blades – the first significant step towards mass production
- › 1889 Move to Pfersee to the present location in Eberlestraße 28

175 YEARS EBERLE-QUALITY

Eberle has established themselves as a world-wide partner and leader of excellence for metal band saws and strip steel products of the highest quality.

175 YEARS EBERLE-RESPONSIBILITY

We make a point of sustainable and responsible economic activity consistent with people and nature.
